

# Call for Workshop Proposals

## CAiSE'09, 8-12th June 2009, Amsterdam, The Netherlands

The theme of the 21th CAiSE is “Information Systems for Business Innovation: The Next Wave”. The workshops associated with the conference will explore how information systems can support co-evolving innovations in networked organizations.

CAiSE'09 invites proposals for workshops to be held in conjunction with the conference, related to the CAiSE topics, and covering new emerging topics, in particular. Workshop proposals should be submitted to the workshop chairs, Paul Johannesson [pajo@dsv.su.se] and Eric Dubois [eric.dubois@tudor.lu]. Prior contact with the workshop chairs is encouraged.

The organizer(s) of approved workshops will be responsible for advertising their workshop, for the reviewing process for their workshop's papers, and for the collection of camera-ready copies of accepted papers (verifying that they comply with the formatting rules). Organizers (including co-organizers) are expected to attend their entire workshop and to provide a summary of the event, for presentation to CAiSE organizers.

### Important dates

Deadline for proposals: 12th October 2008

Decision on acceptance: 30th October 2008

Workshop camera ready date (firm): April 15, 2009

Workshops: one or two days, 8-9 June 2009, Amsterdam, the Netherlands

### Detailed instructions for workshop proposers

The proposal (length up to 1000 words) should cover the following points:

1. Workshop title, length (1 day, 2 days), preferred date.
2. Organisers (PC chairs, other organisers who will be present at the workshop or are otherwise involved, including the person responsible for the web presence and communications). Please include names, addresses, affiliations, and indicate who is the main responsible person. The submission should include a one-paragraph biographical sketch for each organizer, describing relevant qualifications and experience.
3. Purpose: How does the focus of the workshop differ from the main conference? What are the main goals? List the workshop topics.

4. Organization of the workshop. Include any special requirement on infrastructure and room layout.
5. List of PC members.
6. An estimate of number of papers to be accepted, and number of attendees. If applicable, short information on previous editions of the workshop series (this should include attendance information).
7. Short information on your plans for publicising your workshop and making it highly visible.

### **Services provided by CAiSE'09**

1. For every 10 workshop registrations, one organizer of the workshop can attend the workshop for free.
2. Publication of proceedings, based on a pack of source files delivered by the PC chairs, including a preface, list of authors, and other documentation (to be defined).
3. Workshops will benefit from the local organizational infrastructure and receive administrative support (registration, badges, refreshments, hotel booking, room rental, beamers, screens, etc.). The workshop may be cancelled if the number of submissions is low.

### **Submission addresses**

Eric Dubois [eric.dubois@tudor.lu].  
Public Research Centre Henri Tudor, Luxembourg

Paul Johannesson [pajo@dsv.su.se]  
Department of Computer and Systems Sciences, Sweden

Please send proposals to both Eric and Paul.
