Call for Participation Software Product Line Conference 2011

<http://www.splc2011.net>

SPLC, the premier forum where practitioners, researchers and educators can present and discuss the most recent ideas, innovations, trends, experiences, and concerns in the area of software product lines and software product family engineering invites you to come to Munich.

We invite a range of topics related to software product line engineering, both traditional and modern. These topics include but are not limited to:

- Industrial experiences in product line engineering
- Techniques and tools for product line engineering
- Evolution and life-cycle issues of product line assets
- Business issues for product lines
- Organizational and process issues for product lines
- Empirical studies in product line engineering

The program will include research papers, industrial papers, workshops, tutorials, tools and demonstrations, panels, a doctoral symposium, keynotes and a hall of fame which nominates excellent product lines (see <http://www.splc.net/fame.html>).

Further information regarding open submissions, participation, sponsoring etc can be found on the website <http://www.splc2011.net>
